# ABOUT US

## OUR PHILOSOPHY

We bring together the best of two worlds, combining the fun and reward of fine modelbuilding with the rapidly growing interest in prototype railroading, freight cars and structures in particular. The preservation of history in miniature.

## ABOUT OUR KITS

We're concerned about the details - and not only prototype details. We design and manufacture our kits and parts to the highest possible standards. Our parts are designed to fit together, and if they don't we remake the tooling before we release the kit. Molded in a light grey, easy to paint styrene (that reflects light, making even the smallest part easy to see) parts are crisp and virtually flash free. Spares are usually provided for those smaller parts that might get lost or damaged during assembly. Preformed grabirons made from phosphor bronze wire are included where applicable.

Illustrated step-by-step instructions are included. These include prototype history and a painting guide. To avoid confusion, each part is identified by its correct name and is keyed to the instructions by a number engraved on the "runner" or by a printed layout.

Only minimal tools are required; modelers knife, small file, precision tweezers, and a small brush to apply liquid cement. Additionally, you will need either aerosol paint or an inexpensive airbrush.

So give us a try - we know that you will agree with many thousands of modelers like yourself that these are...

**SUPER KITS JUST FOR THE FUN OF IT!!**

## AVAILABILITY

We manufacture our own tooling and do all of our plastic injection molding in-house along with our own printing and packaging. As a result, we can make what we want, when we want, without depending on anyone else for major components. Our policy is to have every item in this catalog in stock at all times. As of the date this catalog was printed, every item was in stock and we had no backorders.

These items (except where noted) are available through distributors to your local hobby store. They are also available direct and through our secure website.

Manufacturers interested in using our parts in their kits should contact us for manufacturer pricing.

# DECAL APPLICATION

For large areas & logos we now suggest the following. Float the decal off the backer and blot dry with a paper towel. Use a q-tip to apply a thin coat of Elmer's clear glue to the back. Position the decal with tweezers and press in place with a piece of stiff flexible foam (like from a brass model box). Let dry overnight, then overspray with clear lacquer. For regular lettering use conventional decal methods. See below for more info.

These are water slide decals with one slight difference. The ink on the decals is cured in place as they are manufactured and will not dissolve in solvaset. Application is easiest over a glossy surface, so spraying your model with gloss coat is recommended. Let dry well. Cut the section of decal you need close to the printing and soak in warm water for a few seconds until you can slide the decal off. Place the decal on a paper towel to remove the water. This is especially important for larger printed areas such as logos. Coat the area where the decal goes with solvaset or equivalent. Place the decal and position it. Press in place with a piece of dense foam. Solvaset may be applied to the film edges to blend them in. Let dry very well and over spray with a clear coat of your choice.

# CUSTOM DECALS

We can print custom decals under the following conditions:

Page size is 8.5 x 11 with 1/8" margins.

Any color combination including white.

First page is \$35, additional pages are \$15

Turn around is usually about a week.

Vector artwork is strongly preferred (Corel or Adobe Illustrator)

Programs such as MS Word can be used for simple lettering.

Many PDFs can be used, send file for evaluation.

Use a unique color for white print, we will convert it.

Programs such as MS Paint etc do not work.

Send artwork & questions to [decals@tichytraingroup.com](mailto:decals@tichytraingroup.com)

# **SIX PACK OF DECALS**

**Just use 10XXX-6 (NSO) to ID the decal you want as a 6-pack.**

**Price is 5 times the individual price.**

**Eg a \$4 decal would be \$20 in a six pack.**

**6-packs will normally contain 6 different car numbers.**

# **DIRECT ORDERS**

**Add 3\$ postage any size order.**
